# 5-POINT YOUTH DEMAND FOR THE GLOBAL PLASTICS TREATY

## **We are the Planeteers.**

As part of the Planeteer Alliance our mission is clear: we are transforming our impatience for change into action for the planet. We address this assembly to amplify major priorities from the youth perspective as the INC-3 proceeds. Representing this alliance, We present five priorities for your consideration in the establishment of a legally binding treaty to address plastic pollution.

As Planeteers, We implore you to engage your youth in determining your nation's stance on the global plastic treaty -it is their future you are deciding.

**1**

## youth

- Ensure active youth roles & engagement from treaty development to implementation.
- Lower the age limit for entry to INC sessions.
- Establish a youth expert advisory council throughout the INC process.

**2**

## urgent

- Rapidly adopt and implement the legally binding instrument.
- Address the plastic problem with the adequate urgency and ambition required.

**3**

## just

- Prioritize inclusive solutions for under-represented and marginalized groups.
- Authentically engage the most affected people and areas
- Rectify the social justice implications of plastic.

**4**

## circular

- Address plastic pollution from production to disposal.
- Include ambitious regulations & limitations on the production of new plastic in the instrument.
- Scale reusable systems and technologies especially in the Global South.

**5**

## equitable

- A comprehensive plan to hold accountable- financially, politically and socially- those nations who contribute the most to the plastic problem.
